Summary

Full Stack Developer with 1+ years of experience in Java, Spring Boot, Node.js, React.js, Express.js, SQL, and MongoDB. Delivered scalable web applications and RESTful APIs, improving system efficiency by up to 35%. Adept at collaborating with cross-functional teams and implementing solutions that enhance user engagement and operational performance.

Skills

- **Languages:** Java, JavaScript, TypeScript, Python
- **Backend:** Spring Boot, Node.js, Express.js, REST APIs, Microservices
- **Frontend:** React.js, Angular, Redux, HTML5, CSS3, Bootstrap, TailwindCSS
- **Database:** MongoDB, PostgreSQL, MySQL, SQL
- **DevOps/Tools:** Git, Docker, GitHub, VS Code, IntelliJ IDEA
- **Cloud/Deployment:** Netlify, Render, AWS (basic)
- **Other:** Hibernate, JPA, Mongoose, Agile, Scrum, SDLC, System Architecture

Experience

LTIMindtree

Navi Mumbai, Maharashtra, India

Java Full Stack Developer

Jun 2024 – Aug 2024

- Led the development and maintenance of Java web applications using Spring Boot and Angular, supporting core business modules for enterprise users.
- Optimized application modules (EDU-HUB, Mobile Hub), reducing page load times and improving system responsiveness.
- Built and integrated RESTful APIs to connect frontend and backend components, enabling new user-facing features.
- Collaborated with cross-functional teams to gather requirements, plan architecture, and deliver releases within project timelines.

Infodia Technologies Pvt. Ltd.

Noida, Uttar Pradesh, India

Java Developer

Jun 2023 – Jun 2024

- Maintained and enhanced existing web applications by analyzing, refactoring, and updating legacy Java and Angular code to improve performance and reliability.
- Constructed new backend services and RESTful APIs using Spring Boot, ensuring seamless integration with existing systems and supporting new business requirements.
- Built and updated user interfaces with Angular, focusing on responsive design and intuitive user experience.

LTIMindtree

Phagwara, Punjab, India

Intern

Feb 2023 – Jun 2023

- Maintained and updated legacy Java and Angular code to enhance stability and support ongoing business operations.
- Orchestrated backend services and REST APIs with Spring Boot to add new functionality as per project requirements.
- Applied theoretical knowledge to real-world tasks, enhancing code quality and problem-solving abilities.
- Utilized Git and Docker for version control and deployment, streamlining development workflow and ensuring reliable releases.

Projects

EduAssess – Online Assessment Platform GitHub

Mar 2025

- Built a MERN stack platform supporting 100+ users, enabling automated grading and dynamic question banks.
- Implemented JWT authentication, RESTful APIs, and data dashboards with Chart.js, improving feedback turnaround by 40%.
- Designed MongoDB schemas with indexing for efficient queries; deployed using Docker, Netlify, and Render for 99.9% uptime.

Mobile Hub – E-commerce Platform

Jul 2024

- Developed a responsive e-commerce platform using Angular and Spring Boot, increasing mobile user engagement by 35%.
- Integrated Spring Security and MySQL for secure multi-role authentication and transaction management.
- Implemented lazy loading and server-side pagination, reducing page load time by 40%.
- Managed Agile sprints, delivering all project milestones on time.

Education

Lovely Professional University, Punjab
B.Tech. in Computer Science and Engineering, GPA: 8.02/10

2019 – 2023

Kendriya Vidyalaya, Kanpur, U.P
Senior Secondary, CBSE, Percentage: 86.4%

2017 – 2019

Certifications

- IIT-M Pravartak Certified Full Stack Development
- Data Structures and Algorithms – GeeksForGeeks
- Java Programming – Hackerrank
- Introduction to Relational Database and SQL(Coursera)
- SQL (Basic) - Hackerrank

Languages

- Hindi (Native/Bilingual)
- English (Professional Working)
